Taleem: To educate children utilizing their sensory skills along with other interactive tools.

Tarbiyah: To have faculty and staff who nurture the highest Islamic values and teach children how to be strong Muslims.

Tazkiyah: To promote physical as well as spiritual well being by focusing on proper Islamic teachings.

STEAM Focused

Hamzah Science Academy uses a **Science, Technology, Engineering, Arts and Mathematics** approach to encourage student critical thinking, problem solving, collaboration and creative processes.

The GA Student Scholarship Program

The Qualified Education Expense Credit law passed in 2008 allocates *\$103 million per year* toward student scholarship Organizations which provide financial aid to students who are Georgia residents and who either are currently enrolled in public school or are eligible to enroll. Georgia taxpayers, both individuals and corporations may redirect a portion of their state tax liability to a school of their choice—Hamzah Science Academy. By doing so, a Georgia income tax credit is available for the tax year in which the donation is made. Additionally, a donor may also be allowed a charitable deduction on their federal income return. Through these efforts, Hamzah Science Academy is able to provide ongoing scholarship programs to underprivileged children.

Helping Georgia Children Achieve Educational Excellence
